

CREDIT CARD PROCESSING

PBS has made your DMS better ... Integrated payment card processing.
Another reason why PBS.

- Free!!! No set-up or maintenance costs for our customers.
- Reduction in yearly spend for processing costs.
- Integration within Aristo/v10, no card information stored within the DMS.
- One step effortless process to accept payment, eliminate your current two-step process.
- No more manual entries, Cash Control automatically sends the payment to the terminal.
- Card type correction, Visa input but MasterCard swiped, DMS will auto correct for reconciliation.
- Eliminate transposition errors caused by manual entries
- Till tape now includes invoice numbers for cross reference
- Front line staff love it, workflow efficiency, staff no longer manually key in amounts
- Till closing automatically closes settlement batch on terminal, consistent values & reporting
- Next day accounting reconciliation easier, till balance report matches settlement report
- Newest machines on the market Tap, Apple Pay, Android Pay ready
- Cancellation any time, no penalties or term
